Tool # 8

PRAYER FOR "SILVER LINE"

PRAYER FOR 'SILVER-LINE'

'Silver-Line' is a God-given vision designed to motivate the elderly to become 'prayer-walkers' as they visit healthcare facilities and make contact with health professionals. The potential for enlarging the prayer ministry through people who may consider themselves redundant because of their age or poor health, is vast indeed!

The vision of 'Silver-Line': Silver hair can become a Silver-Line with prayer leading the way:

- Undertaking 'prayer walks' when visiting health facilities for medical reasons, or when visiting the sick.
- Interceding for health professionals and caregivers in their area of service and seeking ways in which to bless them in their ministry.
- Interceding for students in health-related professions
- Praying for the healthcare field, remembering that more people pass through hospitals and health institutions than through the churches. Patients and their anxious relatives need prayer.
- Being alert whenever the siren of an ambulance is heard - asking God for His Hand to be upon the injured person as well as the care-giver
